SUMMARY

Final-year B.Tech student in Artificial Intelligence and Data Science with experience in software engineering, machine learning, and full-stack development. Built scalable web applications and AI-powered systems using Python, Java, React, Django, and SQL. Strong foundation in Data Structures, Algorithms, DBMS, and Object-Oriented Programming with a passion for building intelligent software solutions.

SKILLS

Languages: Python, Java, C, SQL

AI / ML: Machine Learning, Deep Learning (CNN), Computer Vision (OpenCV), TensorFlow.js, scikit-learn, Generative AI

Data Analytics: Pandas, NumPy, Matplotlib, EDA, Data Visualization

Core CS: Data structure & Algorithms, Database Management Systems

Web / Dev: React.js, Django, GitHub, Flask, Outsystems

Databases: MySQL, DBMS fundamentals

Tools: Jupyter Notebook, VS Code, Google Colab, Linux, Git

EXPERIENCE

Adhoc Softwares

Dec 2024 – Aug 2025

Data Analyst

Coimbatore, India

- Analyzed structured datasets of **50,000+ records** using Python (Pandas, NumPy) and SQL to identify business trends and operational bottlenecks.
- Built interactive dashboards using Matplotlib and Seaborn, enabling non-technical stakeholders to act on insights **40% faster**.

Tarcin Robotics

Feb 2025

Python Developer (Internship)

Madurai, India

- Developed Python automation scripts that **reduced manual data-processing effort by 60%**.
- Integrated third-party REST APIs and implemented backend logic as part of a robotics control pipeline.
- Applied Git-based version control and participated in collaborative code-review workflows.

Marcello Tech

Oct 2024

Frontend Development Intern

Remote

- Implemented responsive UI components following best practices in semantic HTML, CSS structuring, and accessibility.
- Participated in code walkthroughs focused on modern frontend patterns and performance optimisation techniques.

Rajiv Gandhi Memorial Telecom Training Centre (BSNL)

May 2023 – Jun 2023

Next Generation Data Networking Intern

Madurai, India

- Gained hands-on training in networking fundamentals, OSI model protocols, and data communication principles.
- Received a stipend-based internship for successfully completing training in BSNL.
- Completed practical labs on routing, switching, and IP addressing in simulated network environments.

Adroit Technologies Innovative Solutions Pvt.Ltd

IBM Cognos Analytics Intern (Virtual)

- Developed interactive dashboards and reports using IBM Cognos Analytics.
- Applied business intelligence and data visualization techniques to analyze structured data.
- Gained hands on experience in enterprise BI tooling, data modelling and end-to-end reporting pipelines using IBM Cognos

PROJECTS

Abyss – AI Resume & Portfolio Builder | React, JavaScript, Tailwind CSS, Generative AI, PDF Export

- Developed an AI-powered platform for ATS-optimized resume creation and portfolio generation.
- Implemented bias detection, keyword optimization, and AI-assisted content suggestions.
- Enabled PDF export, QR-code sharing, and domain-specific resume customization.
- **GitHub:** <https://github.com/Sujithavenkatraj/abyss-Resume-Builder>

MemoDoc | React.js, Django, MongoDB, Netlify, Render

Feb 2026 – Jun 2026

- Designed and deployed a full-stack web app used **college-wide** to automate event report generation.
- Reduced manual report-writing time from **~2 hours** per event to **under 10 minutes** through templated automation.
- Integrated form-based input handling, dynamic document assembly, and PDF export functionality.
- **GitHub:** <https://github.com/Sujithavenkatraj/MemoDoc>

Lunara – AI-Powered Women's Wellness Platform | OutSystems (Low code technology)

2025

- Developed an AI-powered women's wellness application using OutSystems Developer Cloud.
- Integrated AI models (GPT and Claude) using AI Agent Builder and Agent Workbench.
- Built features including an AI wellness chatbot, menstrual health tracking, mood analysis, and symptom monitoring.
- **Demo:** [Demo video](#)

Patient Record Transfer (PRT) | Flutter, REST API, MySQL

Apr – May 2026

- Developed a secure healthcare record-sharing platform enabling seamless transfer of patient records across hospitals using Aadhaar-based identification.
- Runner-Up, Code Ignite Hackathon — Awarded ₹5,000 cash prize for developing an innovative healthcare record management solution.

EDUCATION

SRM Madurai College of Engineering and Technology

Jun 2024 – Jun 2027

B.Tech in Artificial Intelligence and Data Science

Sivagangai, India

- **CGPA:** 8.51 / 10
- **Coursework:** Machine Learning, Deep Learning, Computer Vision, Data Structures, DBMS

Government Polytechnic College for Women

Jun 2021 – Jun 2024

Diploma in Computer Engineering

Madurai, India

- **Score:** 91.4% Top 5% of cohort

ACHIEVEMENTS & CERTIFICATIONS

Achievements

- 1st Place – Project Expo 2025, SRM MCET, for a Hand Gesture Recognition System.
- Runner-Up – Project Expo 2024, Kalasalingam University, for Patient Record Transfer (PRT).
- Finalist – AWS SuperHack 2025 National Finalist among 5,000+ participants.
- Finalist among 10,000+ students in IBM Naan Mudhalvan Hackathon.

Certifications

- Foundations: Data, Data, Everywhere — Google / Coursera
- Artificial Intelligence Expert — Udemy
- Data Analytics and Visualization with Python — SRM IST, Vadapalani Campus
- Python Programming; JAVA Programming; Computer Hardware & Networking — MSME PPDC
- Start Writing Prompts Like a Pro – Google & Coursera
